OBJECTIVE

I am looking forward to maintain a high degree of professionalism and contribution immensely to the organizations and development. I am an entry level frontend software developer in Nigeria with good understanding of HTML,CSS, JavaScript.

EXPERIENCE

May 2022 -

August 2022

14G x Zuri Cohort
Frontend developer
During the project phase, I worked with a team of 15 designers and 8 developers to build an amazing cinema website like Netflix

EDUCATION

2021

Federal Polytechnic, Ado-Ekiti
HND, Computer Science
Lower Credit

PROJECTS

Landing Page using HTML and CSS
I was able to work with a group of eight(8) trainees during an internship with side hustle to build a perfect product landing page using HTML and CSS.

Cinema website
I worked mainly on frontend part to build a cinema website but still working on the login and sign up pages and the dashboard is more interactive.
